

iCatcher

MOTION ACTIVATED

HomeWatchCam

iCatcher is using Motion Activated technology to capture any movement in the detecting area, and convert the thousands photos into a short Time Lapse video; it will save lots time to review those photos! You can use HomeWatchCam for home security, or put it on your backyard to capture beautiful birds and tricky doggie!

PORTABLE ANYWHERE

iCatcher is using 4 AA batteries as power source, stores videos on SD card installed inside, so you can place it on anywhere!

HOW iCatcher WORKS

HOME SECURITY

iCatcher can be used for home security, it's motion activated technology will capture any uninvited guest in the targeted area!

WATCH YOU PETS

iCatcher also can be used to capture the tricky doggie, so you will know who destroy your beautiful garden!

WATCH YOUR FAVORITE BIRDS

Put your iCatcher in the backyard, and target it to the feeder or area you want, to capture the beautiful birds!

iCatcher Features

Passive Infrared Red motion detection system can capture any movement in the detecting area.

iCatcher comes with unique Power control technology, 4 AA batteries can capture 50,000 frames.

iCatcher build-in Time Lapse technology, convert thousands photos become a several minutes video.

iCatcher uses 4 AA batteries, so you can place it in anywhere to capture any movement!

Put your iCatcher to aim to front door or windows, to capture the uninvited guest!

Universal design, easy to install! You only need to Install batteries and power on it, that's all!
